About Stixr

Breaking Borders Through Sound

Stixr is an Arab American DJ and Producer redefining the electronic music landscape, one genre-blending set at a time. His signature sound fuses driving Tech House and Progressive Afro-House grooves with the deep, hypnotic melodies of Middle Eastern and Arabic heritage a vibrant, high-energy bridge between East and West.

Drawing from Melodic House, Indie Dance, and Global Progressive House, Stixr weaves in languages and rhythms from around the world to create something unmistakably his own. It's music built to move people literally and culturally connecting audiences across continents through sound rather than borders.

With a fast-growing global following on TikTok and Instagram and a steady stream of original releases on Spotify, Stixr is a globally minded artist built for high-energy, international sets from L.A, Morocco, London to Ibiza!!
